

We have remarkable insects that other countries do not have! And the survival of these insects depend on our decision whether to loose or conserve it for our futures?

Hey! Papua New Guinean wantoks! Why do we called our country land of unexpected ? But yet our remarkable insects, that gives us much pride, are disappearing rapidly. Does anyone knows how and why ?

Yu ken askim yu yet, bilong wanem yumi mas tingting tumas long ol dispela liklik binatang? Sapos yu save pinis long bekim bilong dispela askim, ating tumbuna pikinini bilong yu bai kisim gutpela taim bihain.
